

## **Michael Bresler**

**Founder,  
Broadheights, LLC**

Michael Bresler brings a wealth of expertise in artificial intelligence and operational excellence. He has extensive experience in the AI field, including executive leadership roles where he applied AI to drive innovation and streamline operations. His passion for leveraging AI to advance non-profit missions and improve education is evident in his work with organizations and his dedication to empowering professionals with transformative tools. Additionally, Michael has over two decades in business operations, innovation, and client success.

As Chairman of the Board of Beth Tfiloh Congregation, Michael has firsthand experience in lay leadership and understands the unique challenges and opportunities within the Jewish non-profit space. Michael holds a BS in Business and an MS in Negotiation and Conflict Management, which further strengthen his strategic and leadership expertise and his ability to deliver impactful, strategic workshops tailored for diverse audiences. His commitment to community growth, education, and using AI for good makes him uniquely qualified to lead this workshop and inspire participants to harness AI for meaningful impact.

Michael's leadership roles reflect a unique combination of expertise in artificial intelligence, operational strategy, and community-focused initiatives:

### Executive Leadership

- Chairman of the Board, Beth Tfiloh Congregation — Oversees strategic initiatives, operational excellence, and organizational growth for one of the largest synagogues in the country.
- Senior leadership roles in small and large companies — Successfully led.
- AI-focused projects and implemented operational excellence, driving innovation and

efficiency.

#### AI Integration and Strategy

- Designed and delivered workshops to help organizations adopt AI tools for enhanced productivity and mission impact.
- Guided non-profits in leveraging technology to streamline workflows, improve communication, and optimize internal processes.

#### Community Engagement and Education

- Developed educational programs to equip professionals with AI knowledge tailored to non-profit missions.
- Passionate advocate for preparing the next generation to succeed in an AI-driven world through accessible and impactful training.
